March 5, 2018

Dear Parents:

Teachers, school administration, and support staff all play an important role in ensuring a safe school environment. District Administration continues to meet and evaluate school safety procedures. I can assure you that we take school safety and security very seriously at Sterling High School. We are proactive when it comes to our children's safety and have clear procedures in place to deal with emergency situations.

Sterling High School recently received concerns over social media posts through our STOP It App, emails and phone calls that could be perceived as threatening. Our staff and administration continue to investigate these concerns. There has been no credible evidence of any threat to our students and staff. I can assure you that we take every report seriously.

The district has a detailed school safety plan. We continue to work closely with the Somerdale Police Department ensuring your child's safety. Our top priority is the safety and wellbeing of all of our students and your children.

The Sterling High School Administration and staff is aware of your concerns and is handling the situation and utilizing our resources to ensure a safe environment for all of our students. We ask for your support and understanding, and we ask our students to be responsible on social media using all of their resources as they see fit.

Sincerely,

Superintendent of Schools
